To whom it may concern,

This letter is being written on behalf of the Family Lifeworks Program. Family Lifeworks has been working in our school for the past school year. It is my desire to impress upon you the fact that we have seen many benefits from having the program as a support for our families and our students.

As a Catholic school administrator, one of the characteristics of Family Lifeworks that I appreciate the most is their willingness and ability to adapt the program to our specific needs. The teaching group of the program has a keen understanding that each school community has its own issues and problems to struggle with every day. The material they bring is current, dynamic and easy to understand both for the students and the parents.

Family Lifeworks comes to our campus once a month; both for the parent and student sessions. Our students have shown a positive attitude towards the program and are eager to participate in these sessions. Also, the parents have made very positive statements as they exit after each session. In addition, our teachers have commented on the beneficial outcomes they see in the students. They feel that having the topics addressed by an outside source, reinforce their efforts in the classroom, and give the students a new perspective on important issues.

The Family Lifeworks Program has shown us a way to address both parents and students simultaneously on faith matters and "real-life" issues. If we are to be able to help our children and parents in the day to day world they live in, we must help them to develop Christian virtues. The program is focused on these very virtues that are so lacking in our society today.

I highly recommend the Family Lifeworks Program for other schools or institutions that desire to tackle the tough issues that we face in today's world. They have been flexible, reliable, and determined to work within our limitations and timeframes.

Respectfully,

Rick McCormick, Principal
